

Md. Jasim Uddin

Full Stack Developer (C#.Net)

- Strong engineering professional with Military organization
- Proven ability to .Net application development
- Experience with client dealing, training & implementing.

EXPERIENCE (Total: 11 Years)

Chromatics AI, Dhaka — .Net Programmer

May 2025 - Continue

.NET Developer specializing in AI integration and prompt engineering for social media management platforms. Experienced in integrating OpenAI GPT, Google Gemini, and Anthropic Claude models within ASP.NET applications to deliver AI-powered automation and content generation features.

Bangladesh Army, Dhaka — Sr. Software Engineer

April 2021 - December 2025

Led the design and development of secure, enterprise-grade applications supporting military operations. Managed system architecture, code quality, and technical leadership while delivering high-performance, mission-critical software solutions.

Desh Universal (Pvt.) Limited, Dhaka — Sr. Programmer

March 2016 - March 2021

Led the development and maintenance of enterprise web applications using ASP.NET MVC and Web Forms. Managed a team of developers, oversaw solution architecture and project delivery, and collaborated with clients to successfully deliver multiple business-critical projects.

Runner Cyberlink Ltd, Dhaka — Jr. Web Programmer

February 2015 - February 2016

Started my software development career by building and maintaining .NET-based applications and database solutions. Contributed to small and medium-scale projects while gaining hands-on experience in software development, debugging, testing, and application support.
